

Digital Legacy & Memorial Settings

My Wishes

[This is the place to express what you'd want done with your digital presence. Write in your own words. For example:]

- *"Memorialize my Facebook, delete Twitter and Reddit."*
- *"Keep my Google account active for at least a year — there are shared files others need."*
- *"My photo library on Google Photos has all our family photos — please make sure [person] has a copy before closing anything."*
- *"Don't worry about the servers — just turn them off when you're ready."*

Digital Legacy Contacts Already Configured

Service	Legacy Contact	What They Can Access
Apple (Digital Legacy)	<i>[Name or "not set up"]</i>	<i>[Details]</i>
Google (Inactive Account Manager)	<i>[Name or "not set up"]</i>	<i>[Details]</i>
Facebook (Legacy Contact)	<i>[Name or "not set up"]</i>	<i>[Details]</i>
Password Manager (Emergency Access)	<i>[Name or "not set up"]</i>	<i>[Details]</i>

Recommendation

If you haven't already set up legacy/inactive account contacts on Google, Apple, and Facebook, consider doing so. It makes access much easier for

your family without having to go through formal requests with death certificates. The password manager's emergency access feature is especially valuable.
