<i>[Other]</i>			

What "Memorialize" Means

Some platforms (Facebook, Instagram) let you turn a profile into a memorial page. This preserves the profile and lets friends post memories. You'll typically need to submit a death certificate through the platform's help

center.

Legacy Contact (Facebook)

[Have you set a Legacy Contact on Facebook? If so, who? This person can manage your memorialized profile.]

Google Inactive Account Manager

[Have you set up Google's Inactive Account Manager? If so, who is the trusted contact and what will they receive? Check at myaccount.google.com/inactive]
