

# Electrical Panel

## Main Electrical Panel

|                          |                                                               |
|--------------------------|---------------------------------------------------------------|
| <b>Location</b>          | <i>[e.g., Garage wall, basement]</i>                          |
| <b>Panel Size</b>        | <i>[e.g., 200 amp]</i>                                        |
| <b>Breakers Labeled?</b> | <i>[Yes/No — are circuits labeled inside the panel door?]</i> |

## Sub-Panels

*[Are there any sub-panels? Location and what they serve.]*

## Generator / Backup Power

|                      |                                                          |
|----------------------|----------------------------------------------------------|
| <b>Generator?</b>    | <i>[Yes/No]</i>                                          |
| <b>Type</b>          | <i>[Whole-house standby / Portable / Battery backup]</i> |
| <b>Brand / Model</b> | <i>[Brand]</i>                                           |
| <b>Fuel</b>          | <i>[Natural gas / Propane / Gasoline]</i>                |
| <b>How to Start</b>  | <i>[Automatic / Manual — instructions]</i>               |

|                         |                            |
|-------------------------|----------------------------|
| <b>Service Provider</b> | <i>[Company and phone]</i> |
|-------------------------|----------------------------|

# UPS / Battery Backups

*[Any UPS units for computers/network equipment? Where are they? How long do they last?]*

# Electrician

|                |                |
|----------------|----------------|
| <b>Company</b> | <i>[Name]</i>  |
| <b>Phone</b>   | <i>[Phone]</i> |
